Alejandra Sanchez Leggett

Chico, CA | (530) 433-7044 | avsanchez-leggett@csuchico.edu

EDUCATION:

California State University, Chico May 2028

- Bachelor's in Computer and Electrical Engineering

EXPERIENCE:

Undergraduate Research, Chico State May 23 - September 11

- Collaborated with a professor to research the evaluation of Li-S Batteries Using Electrical Measurements During AC Sweep and Transient Response to Changes in Current
- Analyzed electrochemical impedance spectroscopy (EIS) measurements from Li-S batteries across multiple states of charge to characterize battery behavior
- Compared datasets and investigated relaxation processes associated with electrochemical reactions
- Troubleshot and created a program using Python, PyBaMM, and DRTTools to generate graphs displaying the state of charge of batteries and chemical reactions over time

Institute of Electrical and Electronics Engineers (IEEE) April 2026 - Present

- Organized and helped sell electronic kits and parts
- Coordinated and Led soldering and technical workshops as well as fundraisers and other events
- Researched and applied knowledge to Drone Team Member

Computer Science Bootcamp July 2023

- Improved communication, collaboration, debugging, and problem-solving skills to ensure functionality of a virtual game; developed skills in HTML, CSS, C++, JavaScript, and Python
- Presented results and an overview of the game to peers, tutors, and faculty

L.S.A.M.P. Calculus Bootcamp June 2023

- Built rapport with CSU Chico faculty, administrators, and tutors
- Collaborated with peers and demonstrated problem-solving skills

ORGANIZATIONS AND LEADERSHIP:

Society of Women Engineers (**SWE**) April 2026 - Present

- Treasurer of SWE at Chico State
- Managed reimbursements, finances, and budgets, allowing the club to smoothly navigate current and upcoming events

L.S.A.M.P. - Louis Stokes Alliance for Minority Participation June 2023 - Present

MESA Engineering Program/Chico STEM Connections Collaborative August 2023 - Present

Latinos In Technical Careers**(LTC)** August 2023 - Present

Robotics Club August 2021 - June 2023

Central Valley High School (Ceres, CA)

- Designed and engineered simple robotic projects for competitions
- Executed trials for the development of the robot

SKILLS:

Programming & Tools: GitHub, C++, HTML, Java, Python, LTSpice, Logisim, Verilog, Linux, MATLAB, Soldering

Soft Skills: Time Management, Teamwork, Leadership, Accounting
